PROJECTS

Cover To Cover | Github:github.com/jenama/Cover-To-Cover | Live:covertocovercapstone.herokuapp.com

- A web-based application created to enable people to tell stories about their daily lives and answer questions from other users.
- Worked with a team of 3 and acted as project manager to coordinate zoom meetings.
- Mainly worked on the backend and authentication using nodejs, express, and postgreSQL.

HandMeDown | Github:github.com/jenama/HandMeDown | Live:http://handmedown.herokuapp.com/

- A web-based application designed to reduce overconsumption in the fashion industry and support a framework of sustainability by enabling users to provide in-depth detail describing pre-owned items to potential purchasers.
- Collaborated with a team of 4 in constructing frameworks using backend Express and postgreSQL in conjunction with frontend React and CSS to enable functionality.
- Awarded Hackathon's Most Innovative App.

TVBinge | Github:https://github.com/jenama/TvBinge | Live:https://tvbinge.herokuapp.com/

- Worked alone on a web application for users to keep a list of users and shows they are currently watching or have watched.

EXPERIENCE

Roosevelt Island Operating Corporation   **New York, NY**

Program Assistant   March 2018 – January 2019

- Leveraged excellent multitasking ability to simultaneously oversee a variety of specialized tasks and ensure their execution in a timely manner.
- Organized and carried out Halloween celebration, Christmas tree lighting ceremony, Roosevelt Island Day celebration, and sporting opportunities for community members of all ages.

Roosevelt Island Youth Program   **New York, NY**

Activity Specialist   September 2011 – March 2018

- Conducted research and developed engaging lesson plans to coordinate active and immersive opportunities. Coordinated special events, sporting leagues, and seasonal tournaments.
- Instrumental in planning and executing events including Fall Soccer, Winter Basketball, and Spring Baseball tournaments.
